**Project: 5<sup>th</sup> Water Line Project to Jerusalem**  
**Subject: Recommendation Letter**

Dear Sir/Madam,

we are executing a part of the 5<sup>th</sup> Waterline to Jerusalem from Kesalon to Ein Karim, which is about 13km length. The works consists of Tunnel boring and laying steel pipes with a width of 2,9 m. Our employer is Mekorot, Israels National Water Company. Since 2016 we work on this project. Due to the nature of the project we need a lot of experts from overseas to execute the special works of tunnel boring and steel lining.

This is to certify that Dr. Katy Elmaliah, Attorney & Notary has done all visa formalities for us from beginning of the project in the year 2016.

We are very satisfied with the work performed for us in a challenging environment, especially in obtaing work permits for our expatriate staff from different countries all over the world.

Kind regards,

Joint Venture  
Züblin Jäger
